Part I Writing (30 minutes)

Directions: *Suppose you are going to write a proposal to your school library for improving its service. You are to write about its current problems and possible solutions to these problems. You will have 30 minutes to write the report. You should write at least 120 words but no more than 180 words.*

It is now widely acknowledged that a good library is really necessary for college students to study. As for me, the library service on our campus is not as good as we expect. There are several problems and corresponding solutions to improve the service.

First, the service efficiency of borrowing books may be a little bit slow. This is because it always takes me a long time to get a book I want back to the library. Second, it is rather urgent to upgrade the technology in the library. For example, every time I was looking up the name of a book on the computer, I had to wait for the result for one to two minutes after I clicked on the screen. As a result, my school mates and I often complain about the slow pace of the library service.

Considering all the above-mentioned problems, it is strongly suggested that the library should change the rule of how long a book can be borrowed. In addition, the computers and the system truly need to be updated immediately.
